Proposed Services

Voice and Broadband services will be provided with broadband transmission speeds that will exceed 3 Mbps downstream/768 kbps upstream in the designated areas.

Funding

Because the unserved high-cost census blocks within the selected Census Tracts have yet to be identified, McDonough Telephone Cooperative is unable to estimate the construction costs and amount of funding needed. The costs will be identified if and when a formal proposal is submitted.

McDonough Telephone Cooperative expects service within the unserved high-cost Census Blocks to be offered within 18 months after construction starts.

McDonough Telephone Cooperative appreciates the opportunity to provide this non-binding expression of interest. Please contact the undersigned with any questions.
